

Fact Sheet

About 3twenty Solutions Inc:

3twenty Solutions builds accommodations, work spaces, and specialty storage solutions for the mining, oil/gas, construction and industrial markets. 3twenty's products, built out of shipping containers, are durable, transportable, and stackable.

Key Information:

Founded in 2009

Based in Saskatoon, Saskatchewan

Ownership: Privately Held

Interesting Information:

- Unveiled it's first container office prototype in November 2009
- Designers and builders of North America's first shipping container mining camp
- Appeared on Dragons' Den on February 2, 2011
- 3twenty has already reused over 35 shipping containers
- All products are spray-foam insulated
- Projects are built in modules, allowing customers to mix and match to create a floor plan that suits their requirements
- 3twenty represents the average square feet of a 40' x 8' container: 320 sq/ft

Key products:

Mining camps, site offices, exploration core shacks, HAZMAT storage

Product's Key Advantages:

- **Durability:** Shipping containers are built to last. They are a great structural framework for modular construction
- **Transportability:** Shipping containers are meant to move, making them easy to transport around the world
- **Stackability:** Shipping containers are designed to stack, allowing for future vertical expansion of projects
- 3twenty spray foams all products, which creates a continuous vapour barrier that reduces the risk of mould and increases efficiency
- **Customization:** Professional-brainstorming process with clients to develop purpose built products
