The logo for 3twenty SOLUTIONS. It features a white square icon with a stylized '3' inside, followed by the text '3twenty' in a bold, sans-serif font, and 'SOLUTIONS' in a smaller, all-caps, sans-serif font below it.

3twenty Solutions builds accommodations, work spaces, and specialty storage solutions for the mining, oil/gas, construction and industrial markets. 3twenty's products, built out of shipping containers, are durable, transportable, and stackable.

Durable.
Shipping containers are built to last. The steel structures can withstand the wear and tear of the toughest environments.

Stackable.
Our modules are engineered to stack, allowing for vertical expansion. This allows you to maximize your land utility and increase density where space is tight.

Transportable.
Containers are meant to move, and so are our products. By utilizing existing transportation infrastructure, our modules can be shipped all over the world. Handle with care doesn't apply: push, drag, winch, or crane into place.

Recruitment & Retention

You need to hire hard working talent to move your business forward. Finding people is one thing, but providing them a place to live is another.

3twenty provides a new generation of living space for workers in the oil/gas, mining, construction, and energy sectors. By focusing on giving you and your staff a new standard of living while working, 3twenty helps your organization build a valuable recruitment and retention strategy.

3twenty can help you recruit by:

- Giving you an answer to the tough question, "If I take the job, where can I live?"
- Providing transitional accommodations for your work force
- Focusing on finding good people instead of bedrooms for them to stay in

3twenty can help you retain by:

- Providing superior comfort for your team
- Offering a quiet place to sleep - shared walls are reduced and therefore so is the noise you hear from your neighbor
- Creating a stylish home for your men and women, not just "another trailer."
